Each beloved Child of God has been created by the Great Eternal Parents to fulfill some glorious Destiny through the weaving of the individual energies of the lifestream into the Tapestry of the World Plan.

Within the Consciousness of the Great Silent Watcher of the planet Earth is held that individual Divine Plan, as well as the glorious Vision of the completed evolution with regard to the Earth and all its kingdoms. The Christ Self of every lifestream presently engaged in contributing energies to the atmosphere of Earth steps down the Divine Plan for the individual and becomes the Silent Watcher of the evolving soul.

Through the constant drawing and qualifying of energy through the centuries, the instruments (physical, mental, emotional and etheric bodies) of the race have become so heavily charged with impure substance that it is difficult for the outer waking consciousness to even catch a glimps of that individual Divine Plan in order to co operate intelligently in endeavoring to external ise it. Yet, until the outer consciousness can be purified and attuned to a point where the Intelligent God-direction may flow steadily in an uninterrupted rhythmic outpouring, the entire planetary evolution is 'locked', so to speak, in the blind gropings of the earnest, but uncomprehending endeavors of the personal self.

While the Great White Brotherhood is focusing

Its attention, and the Power and Momentum of Its individual and collective Light at Darjeeling, it enables the Beloved El Morya to draw all that energy into the Crystal Ray of Divine Perception and Comprehension for which earnest students are so sincerely calling, and then, with the cooperation of the Cosmic Silent Watcher, the individual Christ Self of each member of the human race receives a directed Ray from this Cosmic Focus into Its own Electronic Heart. This is a specifically added concentrated Ray of Power and is not to be confused with the natural flow of Electronic Light from the Central Sun which forms the lifestream.

As the individual Christ Self, rhythmically, on the hour, receives the added charge of this Crystal Ray into Its Heart, It directs that Ray through the Silver Cord and into the mental body of the student, wherein are lodged concepts, thoughts and beliefs that have been accumulated by the soul for millions of years. Some of them are so deeply embedded, and so far recessed from the so-called 'conscious mind', that the individual himself has no concept that there is yet so much of the voodoo and the fakir in his inmost acceptance of things as they are. Through this accumulation, the God-direction must flow; then through the further confines of the physical brain structure, each cell of which is charged with the thought patterns of centuries, because the same elemental substance is used over again in succeeding lives.

When the Christ Self surges this Flame through the mental body, it is like the opening of a sluice in a great dam, and the rush of pure energy sweeps out tons of this accumulation, loosening other

older and more concrete substance, and gradually the process of purifying the mental bodies will be completed, although the process itself is likely to stir up certain energies that are surprising and distasteful to the individual. May I give you the comfort of reminding you that all actions of the Presence of God are blessings, and so receive this purification in Joy. The action of the Crystal Ray through the brain structure then renders the same service in quickening the actual vibratory action of the cells in the brain, and helping them to throw off the accumulations which make reception sluggish and spasmodic. The Beloved Morya is determined to open the channels of the individual's consciousness to the Higher Mind and the Will of God, and, knowing His Will, I am happily convinced that it is about to be accomplished.

Blessings and Love,

MAHA CHOHAN

We are very interested in the tremendous forward impetus that is being experienced by the chelas at the present time in the coordination and cooperation between the inner and outer selves. This cooperation is the necessary forerunner of the expression of God's Will for the people of Earth.

It has been to gain this cooperation, assistance, and willing, loving understanding of the outer selves, that We have been waiting through the centuries, and now that We have found lifestreams, unascended, who are willing to dedicate the vehicles loaned to them by the Presence of Life for the sole purpose of expanding God's Kingdom, We can begin to go ahead with tremendous power and speed and action in releasing those plans and ideas which will form the foundation of the New Day.

The Spiritual Hierarchy formulated and perfected, long centuries ago, the Design for the planet Earth and her people, which is in accord with that of the God-Will for the Universe. We have but awaited the voluntary cooperation and assistance of the mankind of Earth who were to be the beneficiaries of all the good that has been planned and designed for the people before lowering it into physical form.

The awakening of the individuals who have already turned their thoughts and feelings Godward fills Us with Joy in the promise that if We
